

About ActiveSkyGate

ActiveSkyGate is a globally recognized, ISO-certified EdTech leader. We specialize in delivering live, career-defining training in emerging and enterprise-ready technologies — bridging the gap between what the industry demands and what available Talent.

We focus on three core pillars:

Certification Programs: Co-delivered with global certifying bodies like Microsoft, Scaled Agile, and Kanban University, ensuring credibility and global recognition.

Industry-Led Bootcamps: Designed in collaboration with top-tier practitioners and academic leaders, our bootcamps offer project-based learning aligned with real job roles.

Career Acceleration & Interview Prep: Including personalized coaching, mock interviews, and portfolio development to help learners land high-impact roles across industries.

Our Expertise - From Artificial Intelligence, Agentic AI, and Generative AI to Cloud, Cybersecurity, Project Management, and Agile methodologies, ActiveSkyGate offers a catalog of 200+ cutting-edge courses — all taught 100% live, supported by mentors, capstones, and real-world use cases.

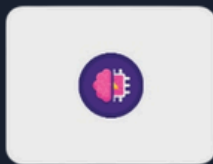

Whether you're a corporate team looking to upskill at scale, or a new graduate preparing for your first role, our programs are built to deliver industry-readiness from Day 1.

Our Impact - With over 25,000 professionals trained and 1,000+ enterprise teams empowered, ActiveSkyGate is not just another EdTech company — we are a strategic capability partner to some of the world's most ambitious individuals and organizations.

AI Forward Deployed Engineer Accelerator

Duration: 16 hours of live instructor-led training

Course Overview

Organizations are rapidly adopting Generative AI, but success depends on professionals who can transform business requirements into scalable, production-ready AI solutions. AI Forward Deployed Engineers play a critical role by combining technical expertise with solution architecture, customer discovery, enterprise integrations, and stakeholder collaboration.

This 16-hour live certification focuses on the business and enterprise delivery aspects of AI. You'll learn how to engage with stakeholders, identify AI opportunities, design enterprise-grade architectures, apply governance and security best practices, and successfully deliver AI projects from discovery to adoption.

Program Highlights

- ✓ Run enterprise discovery and write requirements docs
- ✓ Design enterprise-grade AI solution architectures
- ✓ Integrate agents with Teams, SharePoint, Salesforce, Jira, ServiceNow & Slack
- ✓ Apply RBAC, secrets, audit & compliance controls
- ✓ Demo to executives & drive user adoption
- ✓ Deliver an enterprise AI digital workforce end to end

DETAILED CURRICULUM : MODULES

Module 1: FDE Role, Discovery & Requirements

The FDE role & enterprise AI lifecycle, ROI framing, discovery calls, requirements docs, use-case prioritization, mock discovery practice.

Module 2: Enterprise AI Architecture & Integrations

Enterprise AI solution architecture & integration patterns – OAuth, webhooks, REST, MCP – hands-on with Microsoft Teams, SharePoint, Salesforce, Jira, ServiceNow & Slack (SAP optional).

Module 3: Enterprise Security, Governance & Adoption

RBAC, secrets, audit logging, compliance awareness, AI governance, executive demos, adoption workshops, objection handling.

Module 4: Capstone: Enterprise AI Digital Workforce

Build an enterprise AI digital workforce agent – HR Assistant, IT Service Desk, Procurement, Knowledge or Customer Support – integrated with Teams/Slack + Jira/ServiceNow + knowledge base, with RBAC, audit logs & cloud deployment. Presented as a client engagement pitch. ~6–8 hrs self-paced build.

Exam Details

There is no exam for this program.

Prerequisites

Before enrolling, participants should complete: ActiveSkyGate's Gen AI and Agentic AI Bootcamp

They should have knowledge of:

- Python
- Prompt Engineering
- LLMs
- Retrieval-Augmented Generation
- (RAG)
- AI Agents
- Multi-Agent Systems
- Enterprise AI Fundamentals
